2 Getting started

2.1 Set-up

Removing and installing the back cover

Installing and removing the battery

Inserting and removing the SIM Card

Place the SIM card with the chip facing downwards and slide it into its housing. Make sure that it is correctly inserted. To remove the card, press it and slide it out.

2.2 Power on your phone

Hold down the key until the phone powers on.

2.3 Power off your phone

Hold down the key from the main screen.

3 Calls

3.1 Making a call

Dial the desired number then press the key to place the call. If you make a mistake, you can delete the incorrect digits by pressing the right softkey.

To hang up the call, press the key.

Making an emergency call

If your phone is covered by the network, dial emergency number and press the key to make an emergency call. This works even without a SIM card and without typing the PIN code.

3.2 Calling your voicemail ⁽¹⁾

To access your voicemail, hold down the key.

3.3 Receiving a call

When you receive an incoming call, press the key to talk and then hang up using the key.

3.4 Available functions during the call

During a call, you can use your directory, short messages, etc. without losing your correspondent.

4 Call register

4.1 Call memory

You can access your call memory by pressing the key from the main screen.

4.2 My numbers

Type in or modify your telephone number or the number to access your voicemail and confirm by pressing OK. Your telephone number is usually written on your SIM card.

4.3 Billing

You can access different items with this option: Amount, Duration.

4.4 Call settings

You can access a number of items with this option: Call waiting, Call forwarding, Call barring, Answer mode, Auto redial...

4.5 Call control ⁽¹⁾

The menu serves you the dual purposes of cost monitoring and controlling during a call by the settings of "By cost" and "By duration".

⁽¹⁾ Depending on your network operator.

5 Directory

5.1 Consulting your directory

To access the **directory** from the main screen, press the OK key and select the icon from the menu.

5.2 Creating a file

Select the directory in which you wish to create a file, press the "Options" softkey, select "Create file" then OK.

6 Messages

6.1 Create message

From the main menu select "Messages" to create text message. You can type a message, and you're also able to insert a pre-defined message from "Templates". While writing a message, select "Options" to access all the messaging options. You can save your messages that you send often to "Drafts".

7 Settings

From the main screen, select the icon menu and select the function of your choice in order to customise your telephone: Clamshell, Display, Clock, Keys, Dictionary, More settings...

8 Tools

8.1 Organizer

Once you enter this menu from "Tools", there is a monthly-view calendar for you to keep track of important meetings, appointments, etc. Days with events entered will be marked in color.

8.2 Stopwatch

StopWatch is simple application for measuring time with possibility to register several results and suspend/resume measurement.

8.3 Alarm

Your mobile phone has a built-in alarm clock with a snooze feature.

8.4 Calculator

Hold down the key to get the decimal point. Confirm with the OK key or the left softkey.

8.5 Converter

Unit converter and Currency converter.

8.6 My shortcuts

Access the shortcuts already programmed. To programme new shortcuts: select "My shortcuts" if you want to create a quick access to a function, Directory, etc.

9 Games

Your Alcatel phone may include some games.

9.1 Game settings

It allows you to manage settings, in which you may set background music and vibration alert.

10 FM radio

Your phone is equipped with an FM radio ⁽¹⁾. You can use the application as a traditional FM radio with automatic tuning and saved channels or with parallel visual information related to the radio program on the display, if you tune to stations that offer Visual Radio service. You can listen to it while running other applications.

11 Profiles

With this menu, you may personalise ringtones for different events and environments.

12 Latin input mode

To write messages, there are two writing methods:

- Normal: this mode allows you to type a text by choosing a letter or a sequence of characters associated with a key. Press the key several times until the desired letter is highlighted. When you release the key the highlight character is inserted into the text.
- Predictive with the Zi mode: this mode speeds up the writing of your text. Write the word by pressing a key between and . Press the key once and the word will be modified each time you press a key. As you go on, the word will keep changing.
Example: For "Tomorrow", press on the following keys:
 = Too -> -> tomorrow
- + key in edit mode
Short keypress: access the language list
Long keypress: enter zero
