Information for Users on Disposal of Old Equipment

ENGLISH

[European Union]

This symbol indicates that the electrical and electronic equipment should not be disposed as general household waste at its end-of-life. Instead, the product should be handed over to the applicable collection point for the recycling of electrical and electronic equipment for proper treatment, recovery and recycling in accordance with your national legislation.

By disposing of this product correctly, you will help to conserve natural resources and will help prevent potential negative effects on the environment and human health which could otherwise be caused by inappropriate waste handling of this product. For more information about collection point and recycling of this product, please contact your local municipal office, your household waste disposal service or the shop where you purchased the product.

Penalties may be applicable for incorrect disposal of this waste, in accordance with national legislation.

Attention:

This symbol is only valid in the European Union.

[Business users]

If you wish to dispose of this product, please visit our web page www.jvc-europe.com to obtain information about the take-back of the product.

[Other Countries outside the European Union]

If you wish to dispose of this product, please do so in accordance with applicable national legislation or other rules in your country for the treatment of old electrical and electronic equipment.

Informations relatives à l'élimination des appareils usagés, à l'intention des utilisateurs

FRANÇAIS

[Union européenne]

Lorsque ce symbole figure sur un appareil électrique et électronique, cela signifie qu'il ne doit pas être éliminé en tant que déchet ménager à la fin de son cycle de vie. Le produit doit être porté au point de pré-collecte approprié au recyclage des appareils électriques et électroniques pour y subir un traitement, une récupération et un recyclage, conformément à la législation nationale.

En éliminant correctement ce produit, vous contribuez à la conservation des ressources naturelles et à la prévention des éventuels effets négatifs sur l'environnement et la santé humaine, pouvant être dus à la manipulation inappropriée des déchets de ce produit. Pour plus d'informations sur le point de pré-collecte et le recyclage de ce produit, contactez votre mairie, le service d'évacuation des ordures ménagères ou le magasin dans lequel vous avez acheté le produit.

Des amendes peuvent être infligées en cas d'élimination incorrecte de ce produit, conformément à la législation nationale.

Attention:

Ce symbole n'est reconnu que dans l'Union européenne.

[Utilisateurs professionnels]

Si vous souhaitez éliminer ce produit, visitez notre page Web www.jvc-europe.com afin d'obtenir des informations sur sa récupération.

[Pays ne faisant pas partie de l'Union européenne]

Si vous souhaitez éliminer ce produit, faites-le conformément à la législation nationale ou autres règles en vigueur dans votre pays pour le traitement des appareils électriques et électroniques usagés.

Benutzerinformationen zur Entsorgung alter Geräte

DEUTSCH

[Europäische Union]

Dieses Symbol zeigt an, dass das elektrische bzw. elektronische Gerät nicht als normaler Haushaltsabfall entsorgt werden soll. Stattdessen sollte das Produkt zur fachgerechten Entsorgung, Weiterverwendung und Wiederverwertung in Übereinstimmung mit der Landesgesetzgebung einer entsprechenden Sammelstelle für das Recycling elektrischer und elektronischer Geräte zugeführt werden.

Die korrekte Entsorgung dieses Produkts dient dem Umweltschutz und verhindert mögliche Schäden für die Umwelt und die menschliche Gesundheit, welche durch unsachgemäße Behandlung des Produkts auftreten können. Weitere Informationen zu Sammelstellen und dem Recycling dieses Produkts erhalten Sie bei Ihrer Gemeindeverwaltung, Ihrem örtlichen Entsorgungsunternehmen oder in dem Geschäft, in dem Sie das Produkt gekauft haben.

Für die nicht fachgerechte Entsorgung dieses Abfalls können gemäß der Landesgesetzgebung Strafen ausgesprochen werden.

Hinweis:

Dieses Symbol ist nur in der Europäischen Union gültig.

[Geschäftskunden]

Wenn Sie dieses Produkt entsorgen möchten, besuchen Sie bitte unsere Webseite www.jvc-europe.com, um Informationen zur Rücknahme des Produkts zu erhalten.

[Andere Länder außerhalb der Europäischen Union]

Wenn Sie dieses Produkt entsorgen möchten, halten Sie sich dabei bitte an die entsprechenden Landesgesetze und andere Regelungen in Ihrem Land zur Behandlung elektrischer und elektronischer Geräte.

Información para los usuarios sobre la eliminación de equipos usados

CASTELLANO

[Unión Europea]

Este símbolo indica que los aparatos eléctricos y electrónicos no deben desecharse junto con la basura doméstica al final de su vida útil. El producto deberá llevarse al punto de recogida correspondiente para el reciclaje y el tratamiento adecuado de equipos eléctricos y electrónicos de conformidad con la legislación nacional.

Si desecha el producto correctamente, estará contribuyendo a conservar los recursos naturales y a prevenir los posibles efectos negativos en el medio ambiente y en la salud de las personas que podría causar el tratamiento inadecuado del producto desechado. Para obtener más información sobre el punto de recogida y el reciclaje de este producto, póngase en contacto con su oficina municipal, su servicio de recogida de basura doméstica o la tienda en la que haya adquirido el producto.

De acuerdo con la legislación nacional, podrían aplicarse multas por la eliminación incorrecta de estos desechos.

Atención:

Este símbolo sólo es válido en la Unión Europea.

[Empresas]

Si desea desechar este producto, visite nuestra página Web www.jvc-europe.com para obtener información acerca de la retirada del producto.

[Otros países no pertenecientes a la Unión Europea]

Si desea desechar este producto, hágalo de conformidad con la legislación nacional vigente u otras normativas de su país para el tratamiento de equipos eléctricos y electrónicos usados.

[Euroopan unioni]

Tämä symboli tarkoittaa, että sähkö- ja elektroniikkalaitteita ei tule laittaa talousjätteisiin, kun ne poistetaan käytöstä. Sen sijaan tuotteet tulee toimittaa asianmukaiseen sähkö- ja elektroniikkalaitteiden kierrätyspisteeseen, jossa ne käsitellään uusiokäyttöä ja kierrätystä varten paikallisen lainsäädännön mukaan.

Kun hävität tuotteen asianmukaisella tavalla, autat säästämään luonnonvaroja ja estämään mahdollisia ympäristö- ja terveyshaittoja, joita voisi aiheutua tämän tuotteen vääränlaisesta hävittämisestä. Lisätietoja keräyspisteistä ja tämän tuotteen kierrätyksestä saat paikkakuntasi viranomaisilta, kotitalousjätteiden keräyksestä huolehtivasta yrityksestä tai liikkeestä, josta ostit tuotteen.

Tuotteen vääränlaisesta hävittämisestä voi seurata paikallisen lainsäädännön mukaisia rangaistuksia.

(Yrityskäyttäjät)

Jos haluat hävittää tämän tuotteen, web-sivustoltamme osoitteessa www.jvc-europe.com löydät tietoja käytetyn tuotteen palautuksesta.

[Muut maat Euroopan unionin ulkopuolella]

Jos haluat hävittää tämän tuotteen, tee se kansallisen lainsäädännön tai muiden maassasi voimassa olevien määräysten mukaan, jotka koskevat vanhojen sähkö- ja elektroniikkalaitteiden käsittelyä.

**Huomio:**

Tämä symboli on voimassa vain Euroopan unionissa.

[Europeiska gemenskapen]

Denna symbol anger att elektrisk och elektronisk utrustning inte ska kasseras som vanligt hushållsavfall, när de inte ska användas mer. Istället ska produkten lämnas in på lämplig återvinningsstation för elektrisk eller elektronisk utrustning, så att den kan tas om hand och återvinnas i enlighet med ert lands lagstiftning.

Genom att avyttra denna produkt på rätt sätt, bidrar du till att bevara naturen och förhindrar potentiellt negativa effekter på miljön och den mänskliga hälsan, som annars kan bli resultatet vid felaktig hantering av denna produkt. Kontakta ditt kommunkontor, det företag som hanterar dina hushållssopor eller butiken där du köpt produkten, för mer information om återvinningscentraler.

Det kan hända att du bötfalls i enlighet med ert lands lagstiftning om detta avfall kasseras på fel sätt.

(Företagsanvändare)

Om ni vill kassera denna produkt, besök vår webbsida www.jvc-europe.com för att få information om returnering av produkten.

[Övriga länder utanför den Europeiska gemenskapen]

Om du vill kassera denna produkt, ska detta göras i enlighet med gällande lagstiftning i landet, eller enligt andra bestämmelser i ditt land, för behandling av gammal elektrisk eller elektronisk utrustning.

**Tänk på:**

Att denna symbol endast gäller inom den Europeiska gemenskapen.

Warning

Please follow all the guidelines below

Follow this manual regarding setup!

- Connect only to a 220-240V, 50Hz AC outlet.

Make enough room for inserting and removing the power plug!

Place the TV as close to the outlet as possible!

- The main power supply for this TV is controlled by inserting or removing the power plug.

Never cut or damage the power cord!

- If the power plug is not the right shape, or the power cord is not long enough, use an appropriate plug adapter or extension cable. (Consult your retailer.)

Do not allow the TV to fall or drop down!

- Follow the instructions below to avoid serious injuries.
 - ① Remove the pedestals on the TV only in the cases allowed in "Installation" (P. 8).
 - ② Do not lean or rest your elbows on the TV.
 - ③ Do not allow children to hang from the TV.

On disposal of the TV!

- Follow the instruction in "Information for Users on Disposal of Old Equipment" (P.ii to iii).

Never place anything on the TV!

- Placing liquids, naked flames, cloths, paper, etc. on the TV may cause a fire.

Never expose to rain or moisture!

- To prevent fire or electric shock, never allow liquids to enter the unit.

Never insert objects into the cabinet openings!

- It may cause a fatal electric shock. Take care when children are near.

Never try to repair the TV yourself!

⇒ If the problem cannot be solved in "Troubleshooting" (P. 30), unplug the power cord and contact your retailer.

If the TV is damaged or behaving strangely, stop using it at once!

⇒ Unplug the power cord and contact your retailer.

Unplug the power cord when going out!

- The power buttons on the remote control and the TV unit cannot completely turn off the TV. (Make appropriate arrangements for bedridden people.)
- Make sure that the cooling process (P. 3) has completed before unplugging the power cord.

Ensure ample room to avoid overheating!

- "Care when setting" (P. 8)

Never dismantle the rear panel!

- It may cause an electric shock.

Never block the ventilation holes!

- It may cause overheating or a fire.

Handle screen with care!

- Use a soft, dry cloth when cleaning.

Hold the TV so as not to scratch the screen!

- Do not touch the screen when carrying the TV.

Do not hold by the screen frame when moving the TV!

- This could cause the screen frame to detach, causing the TV to fall. Hold the TV as illustrated on the right.

■ For more details on installation, usage and safety ⇒ Consult your retailer

Precautions

This TV uses a lamp to project the picture on the screen. Misoperations may shorten the lamp life or cause malfunction of the lamp.

Before operating the TV, read all the instructions below.

This TV has a fan to cool the lamp

- When the lamp is hotter, the fan works harder to cool the lamp. In such a case, the noise of the fan becomes louder but it is not malfunction.

Keep children or pets away from the air ducts

- Long exposure to the warm air from the ducts may cause a minor burn.

The lamp is a consumable item

- When the lamp has blown, replace the lamp; otherwise, the picture cannot be displayed. For details ⇒ “Replacing the lamp” (P. 4, 5)

Follow the instructions on “Replacing the lamp” when replacing the lamp (P. 4, 5)

- Handle the lamp carefully and correctly; otherwise, it may cause a burn or an electric shock. In addition, it may shorten lamp life or cause malfunction of the TV.

Never open the lamp cover except when replacing the lamp

- Exposing the lamp is dangerous because...
 - The lamp becomes extremely hot while in use, it may cause a burn.
 - Touching metallic portion of the lamp may cause electric shock.
 - Ultraviolet rays are emitted from the lamp.

Never replace the lamp immediately after use

- Since the lamp becomes extremely hot while in use, it may cause a burn.

Never touch the lamp glass

- Dirt or oil from the finger may cause the lamp to break.

Please follow all the guidelines below

When the power is turned on, the warming up commences

- Immediately after the TV is turned on, the picture is displayed only dimly. It takes about one minute for the lamp to warm up. Once the lamp has warmed up, you can enjoy the pictures at their normal brightness.
- During this warming-up period, the LAMP indicator blinks every 2 seconds.

While the LAMP indicator is blinking, the TV cannot be turned off

When the power is turned off, the cooling down is performed

- When the TV is turned off, the picture on the screen disappears gradually. Once the screen is dark, cooling down is performed for about 1 minute.
- During this cooling-down period, the LAMP indicator blinks every 2 seconds.
- Do not unplug the TV while the lamp is cooling down. This may cause the internal circuits and the lamp to overheat and shorten the lamp life.

While the LAMP indicator is blinking, the TV cannot be turned on

- You can turn on the TV within 15 seconds after turning off.

Condensation on the lamp and screen

- When the heater is turned on or the TV is moved from a cold place to a warm place, droplets of water may form on the lamp and screen. This is called condensation. If the TV is used while this condensation is still present, the picture may seem distorted, and the inside of the screen may become dirty. In this case, wait until the condensation has gone before using the TV.

Do not turn the power on and off repeatedly in a short amount of time

- It subjects the TV and the lamp to stress and may lead to malfunctions and shorten the lamp life.

Do not keep the TV on for more than 24 hours consecutively

- The lamp life may be shortened.

Do not project a still picture for a long time

- Because of the ILA characteristics, still picture may remain on the screen. (The picture will disappear over time.)

■ For more details on installation, usage and safety ⇒ Consult your retailer

Replacing the lamp

The TV uses a lamp to project the picture onto the screen. When the lamp has blown or when the picture becomes dark, replace the lamp.

Before replacing the lamp, read all the instructions carefully.

■ If you feel unsure about replacing the lamp yourself ⇒ Consult your retailer

Preparation

Prepare the Replacement Lamp Kit

- For purchasing the Replacement Lamp Kit, consult your retailer.

Use only the specified Replacement Lamp Kit!

This lamp is for use with JVC model televisions. Using the lamp with a different television or other product could cause a malfunction and/or damage to the television or lamp.

Replacement Lamp Kit:
PK-CL120E

- High-pressure 120 W mercury lamp

When the lamp is near to its end...

- The following message appears on the screen.

Lamp needs to be replaced.
Please refer to the manual
for replacement instructions.

After replacing the lamp,
please reset the timer in the
TV menu.

Press OK, if you do not want
to see this message again.

■ To make the message disappear

After the usage time of the lamp has reached 6500 hours, this message appears every time you turn on the TV.

■ Possible causes of shortened lamp life

- Turning on/off the TV repeatedly in a short amount of time.
- Keeping the TV turned on for more than 24 hours consecutively.

Before replacing the lamp, read all the instructions.

1

Turn the TV off

Wait until the
LAMP indicator
stops blinking

Unplug the TV

2

Wait for at least 1 hour until the lamp
has fully cooled

3

Remove the lamp unit

Never replace the lamp before it has fully cooled!

The lamp becomes extremely hot while in use, which may cause a burn. After turning off the TV, wait for at least 1 hour.

Never attempt to replace the lamp with the TV plugged in!

Attempting to replace the lamp with the TV plugged in could lead to a severe electrical shock.

1

Remove the lamp cover

Philips head type screw
driver (cross-head type)

**If you feel any
warmth near the
lamp, DO NOT
TOUCH IT!**

2

Remove the lamp unit

Loosen

Remove

**Do not drop
the lamp!**

4 Install the NEW lamp unit

1 Unpack

Do not drop the lamp!
Do not shock the glass surface of the lamp!
It may shatter the lamp causing injuries.

2 Insert

- Make sure the lamp sits securely and flat in the housing area.

Re-tighten

3 Reinstall the lamp cover

- Tighten the screw.

5 Plug in the TV

Turn the TV on

- If the lamp unit is not installed securely (e.g. flat in the lamp housing area), the TV won't turn on. In this case, reinstall the lamp unit.

6 Reset the lamp timer

1 Display the menu bar

MENU

2 Select "Set Up"

3 Select "Lamp Timer Reset"

4 Finish

Press OK to reset the lamp timer.

The lamp timer is reset successfully.

7 Finally, the lamp has been replaced!

Never dispose of the lamp with normal trash!

The lamp contains a small amount of mercury. Follow the instruction in "Information for Users on Disposal of Old Equipment" (P.ii to iii).

- If the power lamp and LAMP indicator blink rapidly after turning on the TV ⇒ "Lamp" (P. 31)

Names of all the parts

Remove the terminal cover

- Connecting terminals on the back of the TV
⇒ "Connecting external devices" (P. 9)

About the LAMP indicator

- The LAMP indicator blinks as follows.
- When turning on the TV, the LAMP indicator blinks for about 1 minute every 2 seconds.
⇒ The lamp is warming up. During this period, the TV cannot be turned off.
 - After turning off the TV, the LAMP indicator blinks in orange for about 1 minute every 2 seconds.
⇒ Cooling is performed. During the cooling period, the TV cannot be operated.
 - If the LAMP indicator blinks rapidly
⇒ "Lamp" (P. 31)

Check accessories

Insert the batteries

Use two "AAA/R03" dry cell batteries. Insert the batteries from the ⊖ end, making sure the ⊕ and ⊖ polarities are correct.

WARNING:
Batteries shall not be exposed to excessive heat such as direct sunshine, fire or the like.

■ When watching digital channels (P. 13)

TV/RADIO GUIDE
View the electronic programme guide (EPG) (P. 14)
Switch TV / RADIO (P. 14)

I-II
View subtitles (P. 19)
Audio selection (P. 19)

■ When viewing teletext (P. 15)

■ When choosing a favourite channel (analogue channel) (P. 16)

■ When operating a JVC recorders or DVD (P. 21)

■ When watching TV / Video
Change the aspect ratio (P. 19)
Turn on "3D Sound" (P. 19)

ZOOM
Take a snapshot of the screen (P. 20)
View in multi-picture mode (P. 20)

Basic connections

Please read the user manuals of each device carefully before setup.
It is necessary to connect an aerial to watch TV.

■ Connect with other devices ⇒ “Connecting external devices” (P. 9)

Connect the aerial

- After all the connections have been made, insert the plug into an AC outlet.
- When using an aerial which needs external power ⇒ “Power supply for the indoor aerial” (P. 33)

Connect a VCR / DVD recorder

- After all the connections have been made, insert the plug into an AC outlet.
- Connect “T-V LINK” compatible recording device to “EXT-2”.
- “T-V LINK” ⇒ “What is “T-V LINK”?” (P. 10)
- When using an indoor aerial which needs external power, connect the aerial directly to the TV.
⇒ “Power supply for the indoor aerial” (P. 33)

Watch pay-TV digital channels

Subscribe to a broadcasting company beforehand. A Smart Card (B) will be sent by the broadcasting company after subscribing to it. It may be necessary for you to purchase a Conditional Access Module (A) in addition to the Smart Card. Consult your broadcasting company or retailer.

- ① Unplug the power cord
- ② Insert (B) into (A).
- ③ Insert (A).
- ④ Plug the power cord, and turn the power on.
- ⑤ Perform necessary settings ⇒ “Common Interface” (P. 26)
 - Pay-TV analogue channels cannot be watched.

Installation

Care when setting

When installing the TV, install it according to the instructions below:

- Install the TV on a level and stable surface.
- Never expose to rain or moisture.
To prevent fire or electric shock, never allow liquids to enter the unit.
- Make enough room for inserting and removing the power plug!
- Place the TV as close to the outlet as possible!
The main power supply for this TV is controlled by inserting or removing the power plug.
- To avoid overheating, ensure that the unit has ample room.

- Connect the power cord only to a 220-240 V, 50 Hz AC outlet

Warning

On the front and rear of the TV, pedestals are attached to prevent the TV from falling over. Do not remove the pedestals for normal use; otherwise, the TV may fall over and it could cause serious injuries.

Remove the pedestal(s) only in the following cases;

- When attaching the TV to the wall
- When the instructions supplied for JVC optional goods require you to remove the pedestal(s)

When installing the TV right on the wall

Remove the rear pedestal and install the TV as in the procedure below.

CAUTION:
Remove the rear pedestal on a level and stable surface.

① Remove the cover.

② Remove the screws with a Phillips type screwdriver.

③ Slide out the rear pedestal gently.

④ Attach the TV to the wall.

Be sure to install the TV by two persons.

When installing the TV on a TV stand

Use the optional JVC TV stand

- Refer to the instructions supplied for the JVC TV stand for installation.

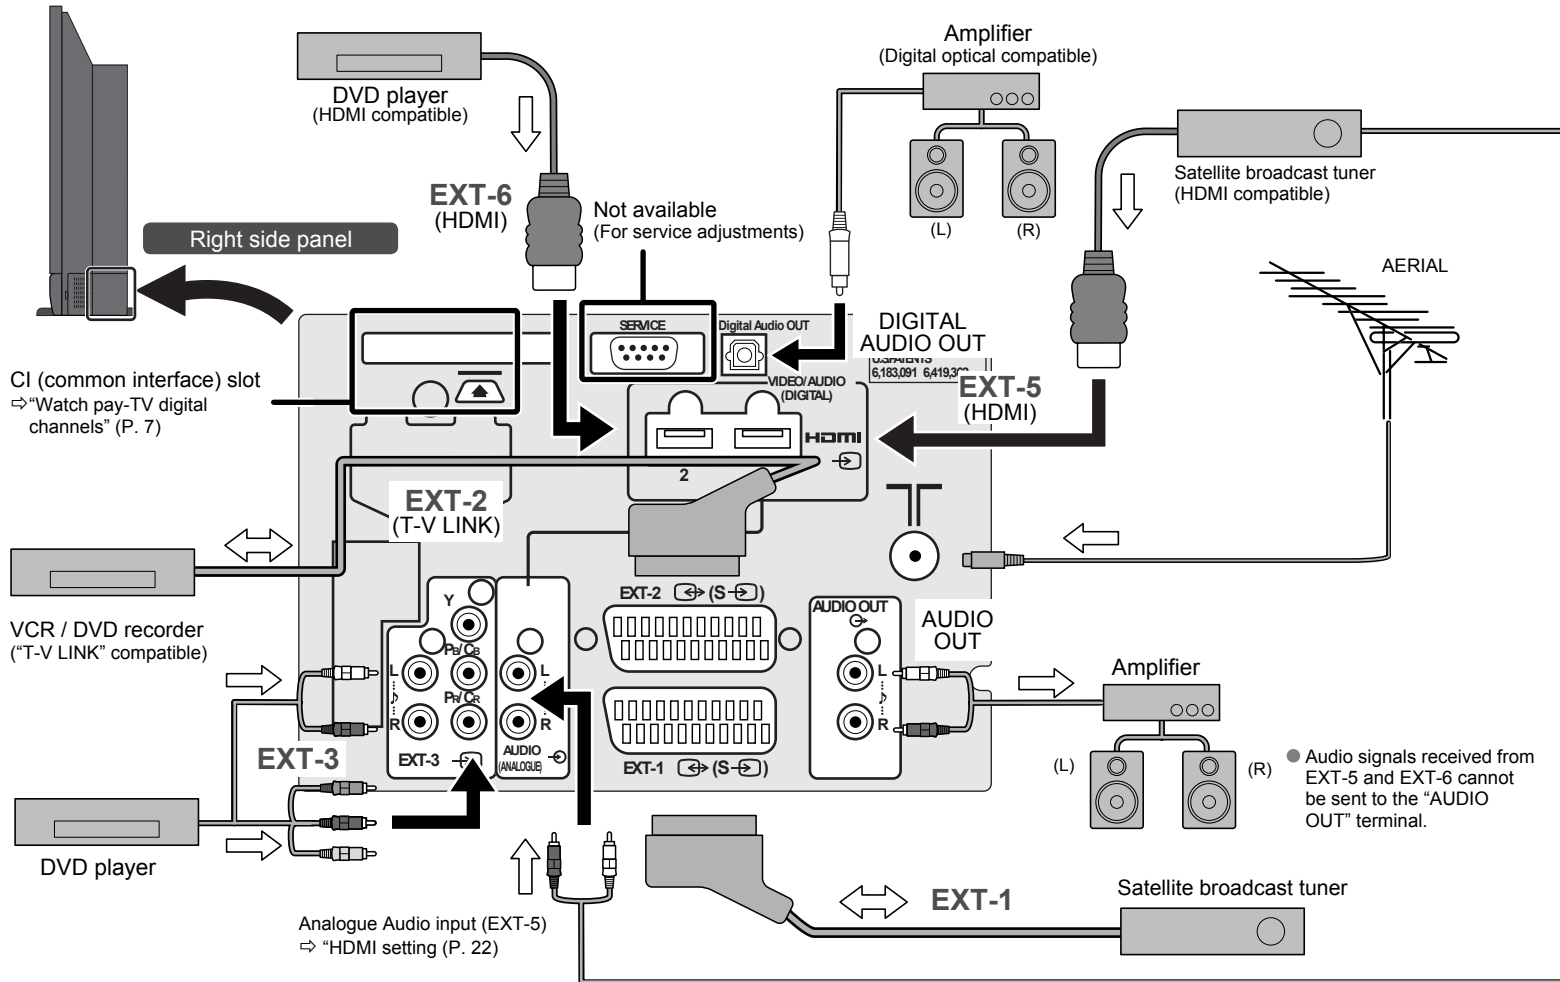

Connecting external devices

VCR / DVD / other devices

You can connect many different devices to the rear panel of the TV.
Please read the user manuals of each device before setting up.
(Connecting cables are not supplied for this TV.)

⇒ : signal direction

- Connect "DVI" devices ⇒ (P. 33)
- "T-V LINK" ⇒ (P. 10)

CI (common interface) slot

⇒ "What is "HDMI CEC"?" (P. 34)

AUDIO OUT

Listening to the TV on external speakers

Output ↑
· Sound L / R

DIGITAL AUDIO OUT

Listening to the digital audio of digital channels through external speakers

Output ↑
· Digital sound (P. 34)

- The sound from analogue channels
and external devices cannot be output.
⇒ "Dolby Digital output from the
DIGITAL AUDIO OUT terminal" (P. 33)

Initial settings

Register digital / analogue channels on TV. These channels can be edited later.
(In this manual, digital terrestrial broadcasting is indicated as digital channels,
analogue terrestrial broadcasting and analogue cable TV as analogue channels.)

■ When turning on the TV, it takes about 1 minute to project the picture to its full brightness.

■ When turning off the TV, it takes about 5 seconds to make the screen dark. After that, cooling is performed for about 1 minute.

⇒ "About the LAMP indicator" (P. 6)

■ To the previous screen ⇒ **BACK**

■ Exit ⇒ **TV/DTV**

■ If the "JVC" logo does not appear or if you wish to make changes later

⇒ Digital channel settings : "DTV Configuration" (P. 25)
"DTV Installation" (P. 27)

Analogue channel settings : "Set Up" (P. 22)

What is "T-V LINK"?

Connecting the TV to a "T-V LINK" compatible device allows :

- Analogue channels to be instantly registered on the device.
- The "DIRECT REC" function to be used.

⇒ "Technical information" (P. 33)

■ "T-V LINK" variations

"T-V LINK" (JVC) "Q-LINK" (Panasonic)
"Megalogic" (Grundig) "Data Logic" (Metz)
"SMARTLINK" (Sony) "Easy Link" (Philips)

Begin

- Shown only when powering on for the first time.
- The power button on the unit can also be used.

■ The remote control doesn't work

- Confirm the mode is set to "TV".

Set digital channels

1 Select a language

- Language for on-screen displays when watching digital channel including the DTV menu.

2 Select the country of installation

- Receivable digital channels will differ depending on the country setting.
- The illustrations are for Finland

3 Set the aerial power supply

- Only when using an aerial which needs external power, select "On".
⇒ "Power supply for the indoor aerial" (P. 33)

4 Scan digital channels

5 Register digital channels

■ If digital channels are not found, the following message will appear.

⇒ **3** (Next page)

- After completing following steps, read "When the TV cannot find the digital channels" (P. 11) and try scanning digital channels again

Initial settings (continued)

3

Confirm the language

● Language for on-screen analogue channel displays and menus (excluding the DTV menu)

■ When changing a language

■ When not using analogue channels ⇒ TV/DTV ⇒ 5

■ When using analogue channels (or cable TV) ⇒ 4

4

Set analogue channels

1 Register analogue channels

■ When changing a country

● If "ACI Start" appears, select and start settings. (This will set up cable television channels.)
⇒ "What is "ACI" (Automatic Channel Installation)?" (P. 33)

2 Check what was registered

■ Edit analogue channels
⇒ 5 in "Editing analogue channels" (P. 29)

■ Confirm

3 Set TV-LINK

■ When using T-V LINK

● If "Feature Not Available" appears:
⇒ Is a T-V LINK compatible device connected to EXT-2?
⇒ Is the device turned on?

■ When not using T-V LINK

5

Initial setting is complete

■ Edit digital channels ⇒ "Editing digital channels" (P. 28)

■ If digital channel reception is poor
⇒ When the digital channel reception is poor (right column)

■ If analogue channel reception is poor ⇒ "Troubleshooting" (P. 30)

■ Some digital channels cannot be watched on this TV.
⇒ "Digital channels that cannot be watched on this TV" (P.33)

When the TV cannot find the digital channels

Check the following points

- Is the TV connected correctly to the aerial?
- Change the direction of the indoor aerial.
- Is there a digital channel transmission tower nearby?
⇒ Turn "Attenuator" to "On" (P. 22), since the radio waves are too strong.

- Register digital channels again. ⇒ "Service Scan" (P. 27)

■ If you cannot yet watch digital channels after following the steps above, there may be a problem with your aerial or its cable. Or, the signal may be too weak. ⇒ Consult your retailer

When the digital channel reception is poor

The "Missing or weak signal" message appears.

Check the following points

- Is the TV connected correctly to the aerial?
- Change the direction of the indoor aerial.
- Is there a digital channel transmission tower nearby?
⇒ Turn "Attenuator" to "On" (P. 22), since the radio waves are too strong.

■ Check digital channels signal. ⇒ "Signal Check" (P. 27)

■ If you cannot yet watch digital channels after following the steps above, there may be a problem with your aerial or its cable. Or, the signal may be too weak. ⇒ Consult your retailer

When "RF Attenuator" setting screen is displayed

- Set "Attenuator" (P. 22) from this setting screen.
To set the "Attenuator" on, select "On." To set it off, select "Off."
- This setting screen will appear during the "Factory Settings (P. 27) with "Attenuator" set to "On."

Enjoying your new TV!

Using timer-record

DTV original function and setting, such as a recorder-linked timer-record setting, can be selected from the DTV menu.

ENGLISH

- Switch to digital channels**
 ■ When switching TV / RADIO
 TV/DTV
- Display the menu bar**
 MENU
- Select "DTV"**
 select next
- Select "Timer"**
 select next
- Set "Timer"**
 (red)
- Select an item**
 select set
 ● Up to 20 programmes can be reserved.
- MENU**

■ To the previous screen
 ⇒ BACK

■ Exit
 ⇒ MENU

● DTV menu cannot be operated with the front buttons.

■ Cancel a reservation
 ⇒ Select the reservation. Press . Select "Yes" and press "OK" button.

■ Change a reservation
 ⇒ Select the reservation and press "OK".

■ Search for a channel using EPG
 ⇒ Press

Reserve a programme to record

Reserve a programme to watch

1 Input / confirm timer-record settings

- Select the channel
- Enter the time and date with number buttons
- Select the reservation mode (Once / Daily / Weekly)
- Normally set to "PCM / Analogue" (PCM / Analogue, Dolby Digital) ⇒ (P. 33)
- Set subtitle recording (Off / On)
- Lock the recording with the maturity rating (Lock / Unlock)

- A message will be displayed if there is problem with the reservation.
- In the following cases, enter the PIN code ⇒ "When entering the PIN Code" (P. 23)
 - When changing the "Maturity Rating" (P. 25)
 - When reserving the channel which is set to "Lock" (P. 28)

2 Set

- At the start time, the channel will automatically change and the device connected to EXT-2 will begin recording the programme.

- If you reserved the programme using EPG, the screen will return to EPG instead. ⇒ Step 3 in "Timer" (P. 14)

3 Prepare for recording

- Set the recording device to external input mode before the start time.
- Manually set the timer on T-V LINK incompatible devices. For details, refer to the device's manual.
- Make sure that recording times on the recording device do not overlap with recording times on the TV.
- Some T-V LINK compatible DVD recorders may not work correctly.
- When the recording timer has been set, the LAMP indicator on the TV lights up orange 30 seconds before the recording starts, and will stay lit throughout the recording.

1 Input / confirm timer-record settings

- Select the channel
- Enter the time and date with number buttons
- Select the reservation mode (Once / Daily / Weekly)

- A message will be displayed if there is problem with the reservation.

2 Set

- If the TV's power is off at the start time, nothing happens.
- At the start time, the channel will automatically change.

- If you reserved the programme using EPG, the screen will return to EPG instead. ⇒ Step 3 in "Timer" (P. 14)

View subtitles

SUBTITLE

(Digital channels)

Off : Don't display
On : Display

- By default, the language set in "Subtitle Language" (P. 25) is automatically selected. When not broadcast in that language, another broadcast language is automatically selected.
- When no subtitles are broadcasted, "No Subtitles" is displayed.

Switch to another language

Ⓢ : Special subtitles for the hearing impaired
Undefined : When the subtitle's language cannot be identified

- The language that can be selected depends on the broadcast.

Select audio language

AUDIO SELECTION

(Digital channels)

Ⓢ : Special audio track for the visually impaired
Undefined : When the audio's language cannot be identified

Dolby : Dolby Digital

- The language that can be selected depends on the broadcast.
- Please read "Dolby Digital" output from the "DIGITAL AUDIO OUT" terminal" (P. 33) before selecting "Dolby."

Set a time for the TV to turn itself off

SLEEP TIMER

- Cancel ⇒ Set the time to "0" in step 4

Remaining time

⇒ You can confirm the remaining time in step 4, after repeating this process.

Enjoy ambient sound

3D SOUND

Change the aspect ratio

ZOOM

- Using "Auto" ⇒ "Auto in "Zoom"" (P. 33)
- When 1080p (1125p) / 1080i (1125i) / 720p (750p) signal is received, the signal will be displayed as "Full". The zoom menu will not be displayed.
- In PC mode, "Regular" or "Full" can be selected.

Useful functions (continued)

Select the number of screens

Selecting "1" returns to normal viewing mode

- Not available in the following cases:
 - when in PC mode
 - when 1080p (1125p) signal is received

Watch in dual-picture mode

E.g. You can watch TV and video at the same time.

(For wide aspect ratio signals)

- Switch between the sound sources
⇒

- Change the channel
⇒ (Main)
⇒ (Sub)

- When watching digital channels, there may be occasions where the aspect ratio changes, for example during commercials. In this case, the layout of the screen in dual-picture mode changes automatically according to the aspect ratio signal.

Select an analogue channel in 12-screen mode

All registered channels are displayed as still images.

Only the selected frame has a moving picture.

- Move up or down a page ⇒
- Not available when in digital channels, EXT-5 or EXT-6 input.

Stop children from watching specific channels

CHILD LOCK
(Analogue channels)

1 Display "Features" menu
⇒ "Customising your TV" (P. 22)

View a locked channel

⇒ Use the numerical buttons to enter the channel number. When appears, press and enter your "ID No."
(If you forget your "ID No.", check it in step 3.)

Take snapshots of the screen

FREEZE
(Analogue channels)

■ Cancel ⇒ Press again, or change the channel

- Not available in the following cases:
 - when the SUB-PICTURE is displayed
 - when watching digital channels
 - when in PC mode
 - when 1080p (1125p) signal is received
- You cannot save or export the snapshot.

Operate JVC recorders and other devices

The included remote control can be used to operate JVC recorders and other devices.

- 1 Select a device**

VCRs
DVD recorders
HDD recorders

Home cinema system

TV (P. 13, 16) DVD players

TV → VCR/DVR
TV → DVD

 - The indicator lights for 3 seconds each time the remote control is operated.
- 2 Turn on the device**
- 3 Operate the device**
 - Other buttons can be used to operate the TV at any time.

Operate the VCR, DVD recorder or HDD recorder

VCR/DVR

Select VCR / DVD recorder / HDD recorder

■ Operate DVD / HDD recorder menus

■ Playback / Record etc.

■ Display the subtitle (DVD / HDD recorder mode) ⇒ Press "i"

Operate the DVD player

DVD

■ Operate DVD menus

■ Playback etc.

■ Display the subtitle ⇒ Press "i"

Operate the home cinema system

HC

■ Operate HC menus

■ Playback etc.

■ Display the subtitle ⇒ Press "i"

■ Mute ⇒ Press "MUTE"

■ Volume ⇒ Press "VOL + / -"

■ Select a surround mode ⇒ Press "SURROUND"

Try changing the remote control code if you cannot operate a recorder.

■ Code A or 1 (Default)

■ Code C or 3

Press and hold

Press and hold

- Confirm the code for your recorder by checking the manual it came with.
- Some models of JVC devices cannot be operated with this remote control.
- JVC DVD recorders and HDD recorders are set to code "C" or "3" by default.

Note

- If the battery is removed, the remote control code reverts back to code A or 1.

TROUBLE?

DTV setup

Available for setting power supply for the aerial, and upgrading the tuner software, etc.

ENGLISH

- 1 Switch to digital channels

- 2 Display the menu bar

- 3 Select "DTV"

 - ① select
 - ② next
- 4 Select "Setup"

 - ① select
 - ② next
- 5 Select an item

 - select
- 6 Finish

■ To the previous screen
 ⇒ 

■ Exit
 ⇒ 

Output the Dolby Digital signal

Digital Audio Output

PCM

: The Linear PCM signal is output

Dolby Digital

: The Dolby Digital signal is output

● Only when the Dolby Digital signal is received

● Please read "Dolby Digital output from the "DIGITAL AUDIO OUT" terminal" (P. 33) before setting.

You can upgrade the tuner software as newer versions become available. Normally set to "Auto".

Auto

: Automatically download and install software upgrades
 ● This occurs at midnight when the TV's power is off.

Manual

: Manually download and install software upgrades
 ● When you change the setting, enter PIN code.

■ When JVC or the broadcasting station informs you of the new software, download it as follows.

① Select "Manual"

② Select "Search for new"

● If upgrading is not necessary, select "OK" to finish.

③ Select "Yes"

"Software upgraded successfully! TV will now reset!"

● If the TV has upgrade to the latest tuner software, the message "Search completed. No new software found" will appear.
 ● Select "In standby" instead of "Yes" if you want to upgrade the software automatically when the TV is turned off.

Upgrade tuner

Receiver Upgrade

Set Conditional Access Module

Common Interface

To watch pay-TV digital channels, use the Conditional Access Module menu. This function can only be used when pay-TV can be received in your region.

No CI Module

: Function is not available

● When the Conditional Access Module etc. is inserted after subscribing to the broadcasting company, this function is available. ⇒ "Watch pay-TV digital channels" (P. 7)

① Press "OK" button to display the Conditional Access Module menu

② Follow the instructions on the screen to set up pay-TV

● The content of the menu is different depending on the broadcasting company.
 ⇒ For details, consult your broadcasting company
 ● The language shown in the menu may differ to the "Menu Language" set for the TV. (P. 23)

Power supply for the indoor aerial

Antenna Power

Off

: Power not supplied

On

: Power supplied

● Please read "Power supply for the indoor aerial" (P. 33) before setting.

● Banner Duration: Select the display time for channel information (2 sec / 5 sec / 8 sec).

DTV installation

Available for registration of digital channels, checking of digital channel signal, and initialisation of all digital channel settings.

- 1** Switch to digital channels
- 2** Display the menu bar
- 3** Select "DTV"
- 4** Select "Installation"
- 5** Select an item
- 6** Finish

■ To the previous screen
 ⇨ **BACK**

■ Exit
 ⇨ **MENU**

Register a new channel

Service Scan

① Set items

Scan	Automatic : Scan automatically Manual : Scan a specified channel range Network : You can select and register only necessary networks.
Start Channel	Specify a scanning channel range (For "Manual")
Stop Channel	
Mode	Add : Add a new channel to the registered channel Reinstall : Register all channels again

② Select "Start scan"

③ Select "Yes"

■ For "Network"

Select broadcasting stations from a list

Check the broadcast signal

Signal Check

- This channel is the frequency of the digital broadcasting. It differs from the channel number displayed on the TV.
- Select another broadcast channel ⇨

Initialise the DTV settings

Factory Settings

All registered digital channels are deleted and the DTV menu settings are initialised. Digital channels are reregistered.

① Enter PIN code

- Default is "0000".
⇨ "When entering the PIN code" (P. 23)

② Select "Yes"

⇨ **2** in "Initial settings" (P. 10)

Editing digital channels

Edit the digital channels registered with "Initial settings" (P. 10).

ENGLISH

- Switch to digital channels
 - When switching TV / RADIO
- Display the menu bar
- Select "DTV"
- Select "Edit PR"
- Select a channel
- Edit
- Finish

To the previous screen
 Exit

Edit a channel name

Name

- Select "Name"
- Change the name
- Set

Edit channel number

Number

- Select "Number"
- Change the number
- Select "OK"

- Only when the same channel number exists.
- The channels are rearranged in numerical order.

Delete a channel

Delete

- Select "Delete"
- Select "Yes"

Stop Children from watching specific channels

Lock

- Select "Lock"
- Lock

- To release, press "OK" button again.
- To enable "Lock" function, turns the TV off and on again.
- To watch the locked channels, the PIN code must be entered.

Lock icon

Register your favourite channel

Favourites

- Select "Favourites"
- set

- To move through only your favourite channels and have them appear in the PR list. ⇒ "Favourite Mode" (P. 25)

Favourite icon

To release, press "OK" button again.

Editing analogue channels

Edit the channels registered with "Auto Program" in "Initial settings" (P. 11).

When coming from "Initial settings" (P. 11), skip to ⑥.

- 1 **Switch to analogue broadcasting**
TV/DTV
- 2 **Display the menu bar**
MENU
- 3 **Select "Set Up"**
Set Up
- 4 **Select "Edit / Manual"**

● Sound fine tuning ⇨ [Left/Right]

select a system

Troubleshooting

■ Analogue channels

Severe noise or snow

- Is the TV connected correctly to the aerial?
 - Change the direction of the aerial.
 - Is the aerial or its cable damaged?
- ⇒ Consult your retailer

Patterns, stripes or noise

- Is the aerial receiving interference from high-voltage power lines or wireless transmitters?
- ⇒ Consult your retailer
- Are connected devices too close to the TV?
- ⇒ Insert the minimum distance between the aerial and the cause of interference until no interference

Ghosting

(Doubling of images)

- Are you receiving interference from signals reflected off mountains or buildings?
- ⇒ Adjust the direction of your aerial, or change to a good-quality directional aerial

■ Digital channels ⇒ (P. 11)

I can't turn it on!

- Is the power cord connected to the AC outlet correctly?

The remote control doesn't work!

- Are the batteries flat?
- Are you more than 7 meters away from the TV?
- Is the "MODE (TV, VCR/DVR, DVD, HC)" set to "TV"?
- When viewing teletext, the TV menu bar does not appear.
- Depending on the stability of the signal, there may be a time lag when changing channels.

	Problem	Actions	page
Basics	Not displayed (black screen)	<ul style="list-style-type: none"> ● Is the analogue channel reception poor, too? ⇒ Following the instructions in "Severe noise or snow" can solve this problem (see left). ● Digital channels are not displayed. ⇒ "When the TV cannot find the digital channels" ● There may be problems at the aerial, radio waves, or the area you live in, where reception is bad. ⇒ Consult your retailer. 	11
	Remote control stops working	<ul style="list-style-type: none"> ● Unplug TV, several minutes later plug it in again. 	-
	Digital channel screen is frozen	<ul style="list-style-type: none"> ● Hold down "TV/AV" and "MENU/OK" on the TV simultaneously for three or more seconds to restart. 	-
	Some functions do not work	<ul style="list-style-type: none"> ● It is not a malfunction. Some functions (dark background) in the menu do not work depending on the situation. 	-
	Front control buttons do not work	<ul style="list-style-type: none"> ● Switch "Child Lock" to "Off." 	20 22
Screen	Aspect ratio changes unintentionally	<ul style="list-style-type: none"> ● Press "ZOOM" to return to your settings. 	19
	PC screen alignment is off	<ul style="list-style-type: none"> ● Adjust the "PC Position". 	17

Technical information

What is "T-V LINK"?

"T-V LINK" allows the TV to share information easily with a connected "T-V LINK" compatible device. By using T-V LINK :

- You can send the channel information programmed on the TV to the "T-V LINK" compatible device, so that both the TV and the external device have the same channel settings. When connecting a new external device, channel information is loaded into it, allowing channel setup to be completed very quickly. For more details, refer to the external device's manual.
- You can easily record the TV programme you are viewing on a "T-V LINK" compatible device by using the "DIRECT REC" feature. For more details, refer to the external device's manual.

What is "ACI" (Automatic Channel Installation)?

Some cable companies transmit a signal called "ACI" which contains information that allows TV channels to be registered automatically on your TV.

When an ACI signal is received, "ACI Start / ACI Skip" appears in the "Auto Program" screen.

Receivable broadcast systems (Analogue channels)

Depending on the country selected during "Auto Program", the receivable broadcast system differs.

- UNITED KINGDOM: Receive only PAL-I.
- FRANCE: Can receive SECAM-L.

To receive SECAM-L in countries other than France:

- 1) Change the "Country" to "France" in "Auto Program".
- 2) Press the "BACK" button to return to the menu and enter the channel using "INSERT" or "MANUAL".

PC Signals that can be displayed

- If the signal doesn't appear, check that the vertical frequency on the PC is set to "60Hz".

Resolution	640 x 480 (VGA)	1024 x 768 (XGA)
Vertical frequency (Hz)	60.0	60.0

Connect "DVI" devices

Connect a "DVI" device to "EXT-5 (HDMI)" using "DVI-HDMI" conversion cable. Connect analogue sound output of the DVI device to L and R terminals in AUDIO (ANALOGUE).

- Set "Audio" in "HDMI Setting" to "Analogue" or "Auto" ⇒ (P. 22)
- EXT-6 input does not support analogue sound.

Power supply for the indoor aerial

When using an indoor aerial which needs external power, set "Antenna power" to "On" during "Initial settings" (P. 10). The TV will supply DC 5V, 50mA (max) from the aerial socket through the cable to the aerial.

- Supplying power to outdoor and indoor aerials which does not need external power, may cause damage to the aerial. If you are uncertain whether the aerial needs external power, select "Off".
- Connect the aerial directly to the TV. When a recording device is connected between the aerial and the TV, power cannot be supplied to the aerial.
- Power is supplied to the aerial only when the TV is on.

■ To change the setting after "Initial settings" is complete ⇒ "Antenna power" (P. 26)

"Dolby Digital" output from the "DIGITAL AUDIO OUT" terminal

Some digital channels are broadcasted with "Dolby Digital" signals. In these cases, "Dolby Digital" signals can be output from the "DIGITAL AUDIO OUT" terminal.

1. Connect an audio system with a "Dolby Digital" decoder. (P. 9)
2. Change the "Digital Audio Output" setting from "PCM" to "Dolby Digital". (P. 26)
 - When changing the setting, the message "Dolby Digital selected! No analogue audio available." may be displayed for a few seconds.
 - Each time the channel is changed to a channel that is broadcast with "Dolby Digital" signals, the message "Dolby Digital selected! No analogue audio available." may be displayed for a few seconds.
 - Even if "Dolby Digital" is set, "linear PCM" signals will be output by a channel that is not broadcast with "Dolby Digital" signals. Set the audio system so that it is compatible with both "Dolby Digital" and "linear PCM". (For details, refer to the audio system instruction manual.)
 - When you want to temporarily change the setting from "Dolby Digital" to "PCM", change with the "Audio selection" menu (P. 19).

■ Set "Digital Audio Output" to "PCM" in the following cases.

The sound of a channel broadcast with "Dolby Digital" signals cannot be heard even when "Dolby Digital" is set.

- When listening with the TV speakers.
 - When listening with an audio system that does not have a "Dolby Digital" decoder.
 - When listening with an audio system that is connected to the "AUDIO OUT" terminal.
 - When recording a programme.
- If a language with "Dolby" is selected when "Dolby" is displayed in the "Audio selection" menu (P. 19), the "Digital Audio Output" setting can be temporarily changed from "PCM" to "Dolby Digital".
- A message recommending you to change the "Digital Audio Output" setting to "Dolby Digital" is displayed for a few seconds.
- If you want to record a "Dolby Digital" signal using timer-record (P. 18), change the "timer-record setting" from "PCM / Analogue" to "Dolby Digital". However, if the setting is changed to "Dolby Digital", you cannot record analogue sound with a recording device that is connected to the EXT-2 terminal.

■ "Dolby" and the double-D symbol are trademarks of Dolby Laboratories.

Digital channels that cannot be watched on this TV

If a digital channel service uses new formats (such as DVB-H or MPEG4, etc.), or MHP, it cannot be watched even though the channel name appears.

If the channel is selected, the picture will not appear and audio cannot be heard.

- You can delete these channels by using the "Delete" in the "Edit PR" ⇒ "Editing digital channels" (P. 28)

Set the clock to the right time

Displayed clock time for digital channels is based on the information from the broadcast, and obtained by calculating the time difference between your time zone and Greenwich Mean Time (GMT) according to the "Country" setting in the "Configuration" menu. ("Time Zone" is set in "Auto")

If there is a time difference within the same country, or the time information is not correct, the clock on the screen is incorrect. To amend this, change the "Time Zone" setting.

- 1 Display "Configuration" menu (P. 25)
- 2 Select "Time Zone" and press the OK button
- 3 Select the nearest city or country from your resident and press the OK button
- 4 Press the MENU button

Auto in "Zoom"

When "Auto" is selected in Zoom, the aspect ratio will turn to the ratio obtained from the information the TV received.

- The aspect ratio will turn to the ratio obtained from WSS (Wide Screen Identification Signal), video signal, or control signal of the external devices. Without receiving the aspect information, it will be the setting in "4:3 Auto Aspect" (P. 24)
- Not available in PC mode.

Technical information (continued)

What is "HDMI CEC"?

HDMI CEC (Consumer Electronics Control) allows the TV to connect and control multiple HDMI CEC enabled devices with a single remote. CEC (Consumer Electronics Control) is an optional protocol used in HDMI.

- HDMI CEC on this TV is compliant with "High-Definition Multimedia Interface Specification Version 1.2a".
- The TV does not support HDMI CEC functions that are not listed below.
- The TV does not guarantee to support use of all HDMI CEC enabled devices.
- Devices that are not enabled to HDMI CEC cannot be controlled with this TV.

■ Control the TV using the HDMI CEC enabled device

- Turn the TV on and switch to the video source of the operating device.
- Switch to the video source of the operating device.
- Turn the TV off with the HDMI CEC enabled device you are viewing.

* For operating instructions of the device, refer to the device's manual.

■ Control the HDMI CEC enabled device using the TV

- Turn off the operating device by turning off the TV.
- * Some device may not support this function. For more details refer to the device's manual.

■ Send status of the TV to the HDMI CEC enabled device

- When switching the TV's external input or channel.
- When switching the TV's menu language.

* Information regarding behaviour of the device when status is received, refer to the external device's manual.

Turning On / Off HDMI CEC:

- Set HDMI CEC ⇨ "HDMI Setting" (P. 22)
- * Factory default setting is "On".

If "HDMI CEC" does not work correctly:

- When HDMI CEC enabled device is connected to EXT-1 or EXT-2 with SCART cable and EXT-5 or EXT-6 with HDMI cable, you may not be able to control TV's external input. To solve the problem set "HDMI CEC" to "Off".

Updating the PR list (Digital channel only)

The TV will run the reception test (for digital channel) at midnight (3 AM) on a daily basis.

If the TV detects channels that became receivable or if the TV was not able to receive a certain channel, a message about updating the PR list will be displayed when the TV is turned on.

- The reception test will only operate when the TV is on standby. It will not operate when the TV is turned on.
- If the TV does not detect any channels that needs to be updated, a message will not be displayed.

■ To update the PR list

- Select "Yes" and press the OK button.
 - "Service Scan" menu is displayed.
Run the service scan to update the PR list ⇨ "Service Scan" (P. 27)
- If "Reinstall" is set in "Mode" of "Service Scan" menu, all PR list setting will reset and all the reservations for "Record" and "Remind" will be canceled. If you want to leave those settings and just add channels, set the "Mode" of "Service Scan" menu to "Add." (P. 27)
 - If "Add" is set in "Mode" of "Service Scan" menu, channels which the TV could not receive will not be deleted from the PR list. To delete those channels manually ⇨ "Edit PR" (P. 28)
 - The service scan will take a few minutes.

■ To cancel the update

- Select "No" and press the OK button.
- If you want to update the PR list later, select "No" and press the OK button. Next time you turn on the TV, this message will not be displayed but you can also update the PR list using "Service Scan." (P. 27)

Specifications

Main unit

Model	HD-65DS80DDU	HD-58DS80DDU
Broadcasting systems	CCIR, B / G, D / K, I, L (See "Technical information", P. 33)	
Colour systems	TV broadcast : PAL, SECAM External input : PAL, SECAM, NTSC 3.58/4.43 MHz	
Channels and frequencies	<ul style="list-style-type: none"> ● Digital : Finland / Spain E21-E69 (Frequency : 474 MHz-858 MHz), Sweden / Germany E5-E12 / E21-E69 (Frequency : 177.5 MHz-858 MHz), France F5-F10 / F21-F69 (Frequency : 178.75 MHz-858 MHz) ● Analogue : E2-E12 / E21-E69, F2-F10 / F21-F69, IR A-IR J, ITALY A-H / H+1 / H+2, R1-R12 / R21-R69, S1-S41, X / Y / Z / Z+1 / Z+2, French cable channels (Frequency : 116-172 MHz / 220-469 MHz) 	
Sound-multiplex systems	NICAM (B / G, D / K, I, L), A2 (B / G, D / K)	
Teletext systems	Digital : EBU TEXT Analogue : FLOF (Fastext), TOP, WST (World Standard System).	
Power requirements	AC 220 V - 240 V, 50 Hz	
Audio output (Rated power output)	10 W + 10 W + 10 W	
Speakers	(1 cm x 9.5 cm) x 2, 2 cm round x 2, 10 cm round x 1	
Power consumption [standby]	204 W [0.68 W]	
Screen size (visible area size measured diagonally)	165 cm	147 cm
Dimensions (W x H x D: mm) [without pedestals]	1459 mm x 1055 mm x 369 mm [1459 mm x 1055 mm x 295 mm]	1305 mm x 961 mm x 346 mm [1305 mm x 961 mm x 272 mm]
Weights	66 kg	54 kg
Accessories	(See "Check accessories", P. 6)	

- A Conditional Access Module for watching pay-TV digital channels can be installed (P. 7)
- DC power can be supplied to the indoor aerial. (P. 33)

Terminals / Connectors

Terminal name	Terminal type	Signal type (IN)	Signal type (OUT)	Notes	
Input / Output terminals	EXT-1	Euroconnector x 1 (SCART connector)	Composite video, S-video, Analogue RGB AUDIO L / R	TV out	
	EXT-2	Euroconnector x 1 (SCART connector)	Composite video, S-video, Analogue RGB AUDIO L / R	Dubbing out	"T-V LINK" compatible
Input terminals	EXT-3	RCA connectors x 5	Analogue component (576i (625i) / 480i (525i), Progressive : 576p (625p) / 480p (525p), HD : 1080i (1125i), 720p (750p))		
	EXT-4	RCA connectors x 3, S-VIDEO connector x 1	Composite video, S-video AUDIO L / R		
	EXT-5 (HDMI-1)	HDMI connector x 1 RCA connectors x 2	HDMI (576i (625i) / 480i (525i) / 576p (625p) / 480p (525p), 1080i (1125i), 720p (750p), 1080p (1125p)) AUDIO L / R (EXT-5 only)		"HDMI CEC" compatible (left column)
	EXT-6 (HDMI-2)	HDMI connector x 1			
Output terminals	PC INPUT	D-SUB (15 pins) x 1	Analogue PC signal (P. 33)		
	AUDIO OUT	RCA connectors x 2		Audio L / R	
	DIGITAL AUDIO OUT	OPTICAL connector x1		Digital audio (48 kHz, 16 bit linear PCM / Dolby Digital)	
	Headphone	Stereo mini-jack x 1 (3.5 mm in diameter)		Headphone output
