English
Congratulations on your purchase, and welcome to Philips! To fully benefit from the support that Philips offers, register your product at www.philips.com/welcome.

1 Introduction

After unplugging, curling and drying, this Volumizer curls, waves and adds volume and thickness. The new Philips curler CareControl with Curl Ready Indicator enables you to create variations on the theme of curls, with no compromise on hair health. Central stage of barrel with diameter from 13 to 25 mm allows you to create different types of curls that wave, flip, smooth, create, coating of the barrel is twice as smooth as your hair. We hope you will enjoy using your CareControl.

We would like to invite you to share your experience with us and other shoppers. Please give us your honest opinion writing a review on product page www.philips.com/welcome. It only takes a minute. We look forward to hearing from you.

2 Important

Read this user manual carefully before you use the appliance and keep it for future reference.

WARNING: Do not use this appliance near water.

When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a risk, even when the appliance is switched off.

WARNING: Do not use this appliance near bathtubs, showers, basins or other vessels containing water.

Always unplug the appliance after use.

If the mains cord is damaged, you must have it replaced by Philips, a service centre authorised by Philips or similarly qualified persons in order to avoid a hazard.

This appliance can be used by children aged from 8 years and above, and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge, if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.

Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

Before you connect the appliance, ensure that the voltage indicated on the appliance corresponds to the local power voltage.

Do not use the appliance for any other purpose than described in the user manual.

When the appliance is connected to the power source, never leave it unattended.

Never use any accessories or parts from other manufacturers or that Philips does not specifically recommend, as you use such accessories properly and under guarantee conditions.

Do not wind the mains cord around the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.

Always place the appliance with the handle on a heat-resistant, stable flat surface. The hot barrel should never touch the surface or other parts of the appliance.
